NUMERACY PROJECT PROFESSIONAL DEVELOPMENT
Alameda County Office of Education
March 3, 2010

California Numeracy Project

Scholastic Inc. in collaboration with the California County Superintendents Educational Services Association (CCSESA) and the Alameda County Office of Education has finalized development of the California Numeracy Project. This program is exceptional for teachers of students in special settings such as alternative programs, intervention programs, summer school and after-school programs.

Workshop Purposes

To train coaches, administrators, math coordinators and instructional staff in the use of the California Numeracy Project.

To demonstrate how this math curriculum applies to comprehensive secondary school intervention classes, alternative education settings, and students preparing for the CAHSEE.

To provide the necessary skills and materials to implement the California Numeracy Project in your county/district/school.

California Numeracy Project Components and Use

- Teacher Guide, Student Annotated Workbook, and CD-ROM (in lieu of transparencies)
- Standards-based math curriculum
- Differentiated lessons cover all mathematics standards on the CAHSEE
  - Core Lessons address 49 standards that must be mastered for the CAHSEE and high school graduation.
  - Developmental Lessons address prerequisite skills and concepts to ensure that students are prepared for the Core Lessons.
- Assessments (15 throughout the course) include tips for student success
- Glossary provides essential vocabulary
