

NUMERACY PROJECT PROFESSIONAL DEVELOPMENT Sacramento County Office of Education March 26, 2010

California Numeracy Project

Scholastic Inc. in collaboration with the California County Superintendents Educational Services Association (CCSESA) and the Alameda County Office of Education has finalized development of the California Numeracy Project. This program is exceptional for teachers of students in special settings such as alternative programs, intervention programs, summer school and after-school programs.

Workshop Purposes

To train coaches, administrators, math coordinators and instructional staff in the use of the California Numeracy Project.

To demonstrate how this math curriculum applies to comprehensive secondary school intervention classes, alternative education settings, and students preparing for the CAHSEE.

To provide the necessary skills and materials to implement the California Numeracy Project in your county/district/school.

California Numeracy Project Components and Use

- Teacher Guide, Student Annotated Workbook, and CD-ROM (in lieu of transparencies)
- Standards-based math curriculum
- Differentiated lessons cover all mathematics standards on the CAHSEE
 - ❖ Core Lessons address 49 standards that must be mastered for the CAHSEE and high school graduation.
 - ❖ Developmental Lessons address prerequisite skills and concepts to ensure that students are prepared for the Core Lessons.
- Assessments (15 throughout the course) include tips for student success
- Glossary provides essential vocabulary

Workshop Registration and Information

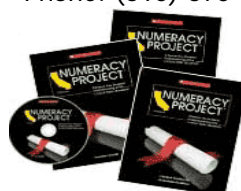

When: Friday, March 26, 2010 -- 8 :00 AM to 12:00 PM

Where: Sacramento County Office of Education, 10474 Mather Blvd., Sacramento 95655

Registration Deadline: March 15, 2010

Further information and registration contact:

Dolores Ragusa, Numeracy Project Liaison
Student Programs and Services Division
Alameda County Office of Education
313 West Winton Avenue, Hayward, CA 94544
Email: doloresr@acoe.org Phone: (510) 670-4252 FAX: (510) 670-4208

California Numeracy Project Curriculum Training Information

Scholastic Inc. has collaborated with the California County Superintendents Educational Services Association (CCSESA) and the Alameda County Office of Education in the development and publication of a new version of the Numeracy Project. This new version of the Numeracy Project provides teachers with fresh tools to provide high need students with the support they need to be successful with mathematics.

The Challenge

Since 2006, California students must pass the California High School Exit Exam (CAHSEE) in order to graduate. The CAHSEE includes Mathematics and English Language Arts sections. While the percentage of California students passing the CAHSEE is increasing, there are still subgroups that consistently score below passing. In particular, students in alternative settings, students in English Learner and Special Education programs, and economically disadvantaged students tend to pass at lower rates than the California average.

The Numeracy Project Answers the Challenge for Mathematics

The Numeracy Project is designed to enhance student understanding of concepts and skills tested in the mathematics section of the CAHSEE. It features targeted content for students with weak skills, tiered lessons for mixed ability group teaching, and strategic classroom presentations that promote student success. The program is designed as a year long course but can be modified to fit into a shorter time frame.

Numeracy Project Workshop

A workshop has been scheduled for March 26, 2010 at the Sacramento County Office of Education.

Workshop registration and materials ordering for the Numeracy Project is easy. Information on the March 26, 2010 workshop can be found on the CCESA website or the ACOE website:

- www.ccsesa.org. Select "Special Projects," click "Numeracy Project," and scroll to Professional Development section.
- www.acoe.org. Click "Numeracy Project" on the right hand side under "*Spotlight.*"
- Order materials as part of workshop registration via ACOE or from Scholastic at <http://teacher.scholastic.com/products/statehomepages/ca/numeracy.htm>

Alameda County Office of Education

Alameda County Office of Education serves as the professional development lead for the Numeracy Project. If you have any questions regarding the Numeracy Project or training workshops, contact Dolores Ragusa by phone (510-670-4252) or e-mail doloresr@acoe.org.

**California Numeracy Project Workshop
Registration Form**

**Friday, March 26, 2010
8:00 AM to 12:00 PM**

**Sacramento County Office of Education
10474 Mather Blvd., Mather, CA 95655**

Please specify:

Workshop (\$50.00) For participants who have their Numeracy materials

Workshop and Numeracy Project materials (\$250.00) This covers workshop registration and \$200 cost for the *California Numeracy Project* kit (student workbook, teacher guide, and CD-ROM). These materials will be ordered for you by Alameda County Office of Education and will be available on the day of the workshop.
